

European R&D Young Professional Program

To support our **Research & Development Teams** in Europe we are looking for a

Packaging developer (m/f)

starting August 1st, 2010

In our two-years international Young Professional Program you will gain first-hand knowledge and hands-on experience in creating, developing, and fine-tuning packaging material. The rotation-style program will allow you to gain skills in disciplines within the Research and Development function, as well as an extensive understanding of production technology and workplace cultures around Europe.

What you can expect from us:

- You will participate in the packaging program in the different Technology Platforms (dry in The Netherlands, sauces in Belgium and Retort in Germany)
- You manage the NPD packaging activities in a multi disciplinary and international project team (marketing, operations, purchasing and R&D)
- You will investigate new packaging opportunities with marketing and suppliers
- You optimize production effectiveness of different packaging forms and formats in close cooperation with operations, purchasing and suppliers
- You build knowledge on new packages, production technologies, trends and competitors
- Foster interaction between platforms and business units

What we are expecting from you:

- Academic/ Master of Science (specialization in Packaging technology) or bachelors Food Technology
- Preferably 1 – 2 experience in Packaging development, relevant in the industry
- Knowledge of packaging materials, production methods, technologies and equipments
- Excellent communication skills (strong in English, both written and verbal), preferable language skills in French and German
- Strong project management skills
- Entrepreneurial drive, creativity, team player, hands on, flexible, assertive and convincing
- Managing good working relationships with all levels in the organization and external parties
- Cost awareness of total packaging process and the influence on the cost price

Working conditions:

Location: The Netherlands (10 months), Belgium (6 months), Germany (6 months).
Travelling within Europe (\pm 25%) to other Campbell sites for project meetings and meetings with suppliers.

Offer:

We are offering you an interesting and challenging position with a promising career perspective in a dynamic and international environment including interesting brands and an individual people development process.

Are you interested?

Please send your application or your request for information to our Human Resource Department, to the attention of Katleen Michiels (katleen_michiels@campbellsoup.com) before June 4th, 2010.

We are looking forward to your application!
