IPI Event «Legal conditions in Packaging»

The seminar informs about legal conditions for the selection and design of packaging for food-, pharmaceutical- and medical products.

In the morning the current legal framework around the compatibility between packaging and content is introduced and explained with examples. The second part of the seminar covers the commercial aspects in connection with the packaging. It includes intellectual property and the up-to-date topic of counterfeiting and fraud which is presented by our guest from Michigan State University, Prof. John Spink.

Date:
November 18th, 2009

Language:
German

[For the detailed program click here](#)

IPI Event «Sustainability in Packaging»

The world of sustainability is in motion. There are many new insights and new laws and regulations are discussed. This event provides information on the latest developments and current trends in the sustainability debate and its implications for the packaging industry.

Content:
Quantification of sustainability in packaging
Available solutions for packaging processes
Joint Discussion and conclusion

Date:
November 25th, 2009

Language:
English

[For the detailed program click here:](#)

IPI Event «Simulations in Packaging»

Companies are required to constantly optimize development cost and reduce development time. This Event will inform about simulation possibilities in the packaging development process.

Content:
Simulation in Packaging Design and Development
Integration of Artwork in Packaging Design
Simulation of Materials
Packaging Line Simulations
Shelf Life Prediction

Date:
December 2nd, 2009

Language:
English

Food and Packaging Conference at Zurich University of Applied Sciences

This year's subject on the food conference of the Zurich University of Applied Sciences is the entire lifecycle of packaging. Starting from the development, production, the actual packaging of food to the consumer and the subsequent disposal.

Date:
October 29th/30th, 2009

Language:
German
